

5 Key Questions Every Small Business CEO Should Ask About Cybersecurity

1. Do we know where our cybersecurity exposure is?
 - people
 - processes
 - technology
2. In the past 12 months, have we conducted a cybersecurity risk assessment?
3. Do we have current information security policies? If so, how are we implementing and evaluating their effectiveness?
4. How are we training our employees and how often?
5. Do we have a cybersecurity insurance policy?
